SOLENIS POLICY

Sustainability

1.0 Policy

Solenis will conduct business in a sustainable manner in compliance with all applicable environmental, health, safety and security laws, regulations, technical specifications and internal standards, while adhering to high ethical standards and commitment to respecting human rights. The health and safety of our workers, customers and communities, as well as the prevention of environmental harm, are among Solenis' primary responsibilities.

1.1 Objective

To outline our commitment to ethics and compliance, continuous improvement, environmental stewardship, diversity, equity and inclusion, human rights, security and worker health and safety across our entire enterprise.

1.2 Our promise

Solenis is committed to continuously improving our business operations and providing safe working conditions for our workers. We are also committed to the design and development of sustainable solutions, including safe use and handling of our products.

Our environmental efforts support the sustainable production, use and disposal of all Solenis products. We also work toward environmental, health, safety and security excellence as an integral part of our management systems. We work to be an industry leader in these areas and are committed to operating our global facilities and businesses in accordance with the principles of [Responsible Care](#)^{*}. Solenis' commitments to the environment, Responsible Care, health, safety and security are outlined in our [Responsible Care policy, SL-POL-005.000](#). Solenis treats resources in a responsible manner to eliminate waste and improve operational efficiency. Each worker is expected to promote these goals in his or her tasks. All employees are expected to use Solenis resources in a responsible manner to eliminate waste.

2.0 Commitments

2.1 Health and safety

Solenis commits to providing workers with a safe, healthy and hygienic working environment, including, but not limited to, safe driving and parking practices, adequate emergency procedures,

^{*}Trademark owned by a third party

fire safety, management of hazardous materials and housekeeping. Where legal requirements for occupational safety do not exist, Solenis will ensure the safety and well-being of workers by employing best practices for health and safety, including, but not limited to, training and incident prevention initiatives. Solenis' long-term ambition is to operate with zero harm; one incident is too many.

2.2 Sustainability

Solenis commits to operating in a sustainable manner by evaluating and improving our social and environmental impacts. On a regular basis, Solenis will conduct a double materiality assessment to identify the key environmental, social, and financial impact for our business. Solenis will integrate sustainability targets on these material issues into company objectives, embrace best practices, communicate our results to stakeholders, and publish a Sustainability Report on a regular basis. The report can be found at www.solenis.com/en/sustainability/strategic-vision.

2.3 Ethics and compliance

We conduct business consistent with our core values of respect, integrity and accountability across all our operations around the world, without exception. We compete and conduct business based only on the distinction and quality of our products and services, and the value we deliver to our customers. Our [Global Standards of Business Conduct](#) (the Code) underpins our Deliberate EthicsSM Culture. Each year, each employee will certify adherence to these standards and that they are not aware of any violations of our Global Standards of Business Conduct. The document is available in 26 languages in the Sustainability and Regulatory Library on solenis.com.

2.4 Transparency

We maintain an open and active dialogue with our workers and communities about environmental, health, safety, security and product stewardship issues. We work with governments, policymakers, advocacy groups and value-chain partners to develop and promote laws, regulations and practices that improve human health and the environment. Solenis will report progress on our management of the material sustainability issues regularly.

2.5 Environmental stewardship

Solenis commits to compliance with all applicable environmental regulations where we manufacture, sell or distribute products. Environmental permits will be kept current and followed. Where no local regulations exist, we will operate in a manner that does not pose risks to the environment. Our facilities are operated to reduce our impacts and improve our overall environmental performance. A key focus is the reduction of environmental incidents that may arise from chemical releases.

In addition:

- Climate change and energy management – Solenis recognizes the threat that climate change poses and will take appropriate action to mitigate our impact. Solenis takes action and manages impacts by combining energy-related investments with efficient manufacturing best practices.

- Water management – We assess and manage our water risks by reducing withdrawals from sources such as bodies of water, groundwater and wells; improving our wastewater systems; responsibly managing water; and supporting access to safe water, sanitation and hygiene for our workers wherever we operate.
- Protection of biodiversity and ecosystems – Some of our sites are located near sensitive ecosystems and as a matter of course we conduct environmental impact assessments to ensure that our impact is minimized.
- Waste management – In our manufacturing sites, we have implemented processes to reduce, recycle and reuse materials that potentially can become waste.

2.6 Security

Solenis commits to maintaining and securing the physical work environments, including but not limited to physical security measures, access control, information technology and cyber security, response to security threats and security incidents, and a security continuous improvement process. See [Facilities Security – U.S., SL-POL-005.003](#) and Operational Technology Security, SL-POL-006.010.

2.7 Product Stewardship

Solenis commits to ensuring our products are safe for their intended uses. Risks to human health or the environment associated with the use of Solenis products must be negligible. Products must comply with all applicable regulations where they are manufactured, sold or distributed. Products must be supported by safety information including, but not limited to, appropriate directions for use, hazard classifications, warnings, first aid instructions and emergency contact information. Accurate and complete Safety Data Sheets and labels must be legible and available to distributors, customers and end users.

Solenis also commits to responsible material use. See [Responsible Chemistry Policy, SL-POL-010.002](#); [Sustainable Procurement of Raw Materials, SL-POL-008.005](#); [Responsible Palm Oil Sourcing, SL-POL-008.012](#), and [Conflict Minerals, SL-POL-008.012](#).

2.8 Supplier engagement

Solenis commits to engaging and collaborating with suppliers to ensure they are complying with environmental regulations and not posing risks to the environment. Suppliers are expected to have all applicable environmental permits in place. See [Supplier Code of Conduct, SL-POL-008.007](#), [Conflict Minerals, SL-POL-008.012](#) and [Procurement Sourcing, SL-POL-008.000](#). Solenis also commits to engaging and collaborating with suppliers on key social and governance issues, such as, but not limited to, modern slavery, ethical business practices and anti-discrimination activities.

2.9 Equal opportunity and non-discrimination

Solenis is an employer committed to fair and equitable practices and opportunity for all people, and commits to a workplace free of discrimination, harassment and retaliation. We create a workplace culture where all employees are provided with growth and development opportunities, providing long-term career paths to all employees. We promote two-way dialogue with our employees individually and through collective representatives; and support Employee Business Resource Groups to enhance engagement and belonging.

2.10 Social and human rights

We focus on upholding and promoting human, employment and labor rights in all aspects of our business and protecting the rights and interests of all our stakeholders, individually and collectively. Solenis has adopted the norms and principles in the Universal Declaration of Human Rights and other international Human Rights frameworks. See [Human Rights, SL-POL-004.030](#)

2.11 Governance

We are committed to develop and implement our positions on sustainability and monitor global developments and sustainability trends to ensure that Solenis' efforts remain relevant, competitive and compliant with governmental requirements. In addition, through our governance structure, the company monitors and facilitates progress to ensure consistency with our strategy, goals and reporting standards. We will report regularly to senior leadership and our governing bodies on our strategy and progress in these areas.

A core component of our governance framework involves industry benchmarking, and establishing and maintaining relationships with external authorities, government agencies, regulatory bodies, industry representatives, customers, and other parties while representing and protecting our business interests in the external environment.

The governance structure is subject to the compliance obligations under [Solenis' Global Standards of Business Conduct](#), including the reporting of any potential concern.

2.12 Public policy engagement

Solenis conducts our public policy engagement, political activities and participation in trade associations in compliance with applicable laws, regulations and company policies. Any political contributions, lobbying activities or related expenditures must be appropriately reviewed and approved in accordance with Solenis policies and governance requirements. See Political Contributions and Expenditures, SL-POL-004.005. Solenis conducts such activities in a manner consistent with its business objectives, ethical standards, and sustainability commitments.

Consistent with these commitments, Solenis does not support or fund climate denial and does not lobby against climate-related regulation.

3.0 Use and maintenance of this policy

This policy will be communicated to all employees and made available at all Solenis sites. The Environmental, Health and Safety department and Corporate Sustainability team will review this policy on a timely basis, at least once per year. Updates will be made to ensure the policy reflects best practices for sustainability.

Any violation or potential of this policy should be reported to management, the Human Resources Department, the Legal Department, the Office of Ethics and Compliance, or a report be submitted via the Share Your Concern Portal, available on Solenis' intranet page and website.

4.0 Scope

This policy covers all Solenis businesses, subsidiaries, offices, warehouses, manufacturing facilities and operations globally. Compliance with this policy is the responsibility of every worker worldwide and is a condition of employment. Managers will lead by example as well as educate and train workers and stakeholders. Everyone must commit to the safety of themselves, co-workers, visitors and customers. Anyone concerned about a work-related situation should stop the activity and report it as unsafe to their manager, who will lead finding a safe approach.

5.0 Owner

Chief Sustainability Officer

6.0 Endorsement

John E. Panichella, CEO

7.0 Exceptions

There are no exceptions to this policy.
